Notes from the Editor:

We had a great time at the Oklahoma State fair again this year. Except for the rain the first couple of days, the weather was pretty nice. According to fair officials there was record breaking attendance every day.

I want to personally thank everyone that helped out this year. We had a good crew of workers. We had a couple of days where unforeseen events had us working shorthanded but everyone on duty did a great job. Our booth has gotten better each year. People know where to find us and have come back each year to visit and look over the ironwork on display.

The month of October is going to be busy with our conference and the other events around the state that come with the cooler weather.

I hope that everyone that plans to come to the conference was able to get a hotel room. I understand that they are in short supply due to the other events in the area.

Enjoy the cooler weather and happy forging.

Diana

From the President.....

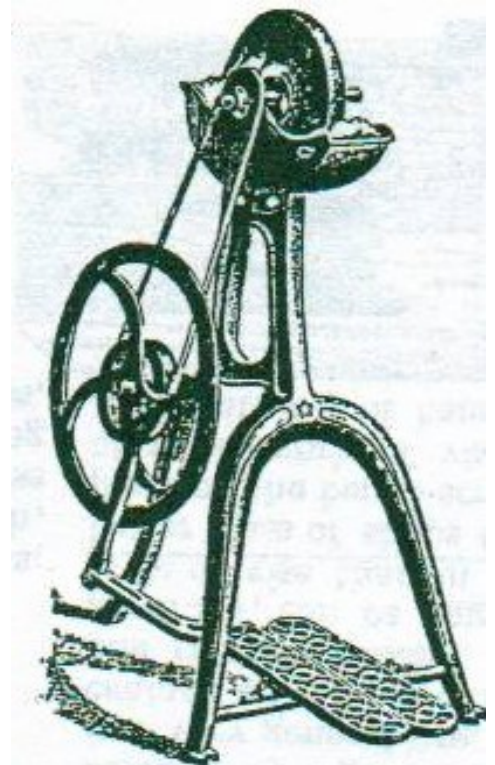

Now that cooler weather has arrived I have been able to light up the forge and get back to work on a couple projects that I had started back in the spring. Speaking of projects, we still have room for more nail type objects for the nail board that we are selling tickets for along with the tool box. So, you still have time to make that nail and if you can please make or donate one of the many tools still needed for the toolbox. Tools and nails can be sent to Bill Kendall or given to any BOD member if you will not be able to make the conference. Tickets for the tool box and nail board can be bought from any BOD member. If you plan to make and donate an item for the Saltfork Tool box please let Bill Kendall or Diana Davis know so we can update the tool list.

For those of you who may not know, the Saltfork Craftsmen web site has a lot of information at your finger tips. From the Calendar to the Gallery and Tailgating. The Members Gallery is for you to “show off your work” So if you have something you worked hard at and are proud of, why not take a photo and send it to the Webmaster. She will get it in the Gallery for the rest of us to look at. Every body likes to look at what others have made.

I am looking forward to visiting with the many of you that I haven't seen all summer at this years Saltfork Conference and like to remind you all that we have two great demonstrators. Bob Patrick and Lucien Avery who you can learn greatly from.

See you at the Saltfrok Conference
Gerald Brostek

Year end meeting dates. We are getting closer to the end of 2012. Here are the meetings we have coming up. There are NO official regional meeting in the Month of October due to the SCABA Conference.

November:

SE region:

November 3, 2012

Host: Open

Phone #:

NE region:

November 10, 2012

Host: Matt Goyer

Phone # 918-272-8424

Trade item:

Lunch: lunch provided, bring a side dish

SC region:

November 17, 2012

Host: Bill and Diana Davis

Phone #: 580-549-6824

Trade item: candle holder

NW region:

November 24th 2012

Host: Roy Bell

Lunch:

Trade item: bell

December:

SE region:

December 1, 2012

Host: Open

NE region:

December 8, 2012

Host: Charlie McGee

Phone # 918-245-7279, cell 918-639-8779

Trade item: ladle

SC region:

December 15 2012

Host: Ricky Vardell

Trade item; something Christmassy

Phone: 580-512-8006

Meal provided

NW region:

December 22, 2012

Merry Christmas

Oklahoma State Fair in OKC September 13-23 2012

Saltfork Craftsmen were one of the many attractions that fair goers could see in the “Centennial Frontier Experience “ again this year. Members spent 10 days blacksmithing for and visiting with fairgoers of all ages. Many of them repeat visitors that came back again this year to see what we were making this year. From penny hats to lucky horseshoes, members had a wide selection of metalwork on display.

Byron Doner and Diana Davis would like to thank all the members that volunteered to work the fair this year. We had a crew made up of 20 members and spouses that divided up the hours so everyone got a chance to see some of the other things going on during the fair. We hope to be invited back again next year, so anyone interested in working needs to practice up and gets examples of your ironwork to display.

See you at the fair in 2013 Diana and Byron

September meeting reports

◆ **SE regional meeting was held on September 1st at the home of Bill Phillips.**

We had a good meeting for Sept 1. There were 23 people for the meeting. We had 2 forges going inside the shop because of the burn ban. The forges ran all morning. We had 4 trade items, which was a knife. There was a door prize given away at 1:00pm. The door prize was a knife blank that was demo forged by Wade Seawart at our last meeting in June. I took the blank and finished it. The door prize was won by Mark Keener of Hartshorne. Mark is a young man who has just started smithing.

Good Smithing—Bill Phillips

● **NW Regional meeting held on Sept. 22 2012 at the home of Mandell Greteman.**

09.22.12 there was a Blacksmith meeting held at the home of Mandell Greteman in Foss, Okla. There were about 17 members that attended. The trade item was a dinner fork and there were three made. A lunch of Roast, potatoes, green bean gravy, Deb's outstanding okra salad and brownies, ice cream and prickly pear cactus sauce was served.

The weather was great, Roy Bell made a steak turner and fork for his sister. Outstanding job.

November meeting hosted by Roy Bell will be at the Mandell Greteman home.

Laquitta Greteman.

Western Spirit Celebration – 2012
Gerald Franklin

The 2012 Western Spirit Celebration was held at the Chisholm Trail Heritage Center in Duncan, OK on September 14-15, 2012. The Duncan area had received a good rain on Thursday night, which helped greatly with the fire danger. I set up my portable forge on Thursday afternoon in preparation for crowds that were expected on Friday and Saturday for the event. There were several activities associated with this year's Western Spirit Celebration. Many Oklahoma wineries were in attendance and hosted a well-attended wine tasting on Friday and Saturday. This event, the "Winin' on the Chisholm Trail" is associated with the local AMBUCS chapter and the proceeds go to their AMTRYKE Program.

Friday was "Senior Citizen Day" but there was a large group of people of all ages there, many of them participating in the various activities going on all day. Saltfork member Mark Galloway was there on Friday to demo for the crowd, too.

Saturday morning brought the opening ceremony topped off with a longhorn cattle drive. This event was well attended and sales were pretty good. I've done this event for several years and they always have a large crowd. In addition to my forge set-up there were 6-8 chuck wagons competing in several food categories. One of the best things about supporting this event is that I always get fed at one of these top-notch wagons.

I was pleased to see a steady flow of people coming by to watch the forging and listen to my line of "bull". I passed out several newsletters and membership forms throughout the weekend so maybe there will be a few new members join up.

If you have never been to the Chisholm Trail Heritage Center in Duncan, you need to plan a trip to tour the small but very well done museum. They have a very nice art gallery with western art by well-known artists such as Frederick Remington, George Catlin, and Charles M. Russell. It opens at 10 AM daily.

Need a Demo Opportunity or maybe just someplace to go this weekend. Check out the following announcements that have come in to the web site.

Another event for our newsletter/website "Demo Opportunities" page:

The Heroes & History Celebration in Minco, OK is looking for at least one smith to demo at their event on Oct 20, 2012. This event is sponsored by the Jesse Chisholm Scholarship Foundation and Art Gallery. Contact the organizers at 405-301-1626 or email jcsf.trail@hughes.net.

Note: The organizers of this event approached me at two demonstrations that I did in the past 7 days: the Western Spirit Celebration in Duncan and at the OKSF. You'll note that the event takes place during our conference and I explained this to the folks. It should be posted because EVERYBODY won't be at the conference.

Gerald Franklin
Black Bull Forge
Duncan, OK

Hello, My name is Kelli Evans, I am a Reserve Police Officer for the Town of Coyle, located in Logan County Oklahoma. I recently attended the State Fair, and noticed your demonstrations going on. I was very impressed and intrigued by them. Our little town will be having its 3rd annual Fall Festival, on Saturday October 27. This event is used to raise money to improve community access points, such as parks and structures. We have free vendor booths available for anyone interested in coming out for the day. I thought there might be someone in your group that would like to come out to give blacksmithing demonstrations and bring some of their for sale items as well. Again, there is no charge for the booth, we just ask that each vendor clean up their space upon departure. There will be entertainment throughout the day, game for the children, food, and other fall activities, like pumpkin decorating and costume contest. If you know any of your associates that would be interested in coming out for the day please let me know. My contact information is 405-338-8425, or you can contact me at this email address. I would love to see someone from your organization come! Thank you for your time, and I hope to hear back from you!

Most Kindly,
Kelli Evans - Town of Coyle

Artist-Blacksmith Association

CONFERENCE SCHEDULE

• Friday, October 19th

Conference setup starting at 8:00 a.m.

• Saturday, October 20th

Registration opens at 8:00 a.m.

Demonstrations 8:00 - Noon

Lunch break Noon - 1:00 p.m.

Demonstrations 1:00 - 5:00 p.m.

Dinner 6:00 p.m.

Drawing for toolbox 7:00 p.m.

Auction 7:00 p.m.

• Sunday, October 21st

Registration opens 8:00 a.m.

Demonstrations 8:00 - 11:30

Lunch Break 11:30 - 12:30 p.m.

Demonstrations 12:45 - 4:00

Cleanup and teardown 4:00 p.m.

Lucian Avery

Lucian Avery started blacksmithing in 1992, captivated by the idea making his own tools for gardening, woodworking and, once he got started, for blacksmithing. Since then, he has forged a wide array of custom pieces, working with designers, builders and homeowners from across the country. His work has ranged from thumb latches for historic buildings to stair railings, fire tools, and garden gates. Lately he has come to especially enjoy making early American door hardware.

In his demonstration Lucian will show how to make thumb latches and strap hinges as well as some tools for smithing and other labors. As he works, he will discuss the details of why steel moves the way it does and how he coaxes it to go where he wants it. His website is www.lucianaveryblacksmith.com

Robert Patrick

I'm 64, have smithed professionally since 1967. I started at a restoration, Hale Farm and Village, in Bath Ohio. In 1970 I attended Midwest Ferrier School in Xenia Ohio and started horseshoeing in addition to blacksmithing. In 1971 I started teaching blacksmithing at Kent State University in the Art Department under Mary Ann Scherr, where I was exposed to art smithing. In 1974 I joined ABANA. In 1976 I moved to the Ozarks and started blacksmithing under Big Anvil Forge with Gerald Brostek. In 1978 I moved to Bethel Missouri and continued under that business name and started Big Anvil Forge School of Blacksmithing. I demonstrated under the Arch in St. Louis for the Frontier Folklife Festivals in the late 1970's early 1980's. I was Master Blacksmith 3 times under the Missouri Arts Council and Once in Arkansas under the Arkansas Craft School. I demonstrated in 1994 and 2000 at ABANA Conferences and taught a forge welding class at the 1998 ABANA Conference, demonstrated with Tom Clark's sculpture group at the ABANA Conference in Richmond, KY, demonstrated at the Caniron Conference in Saskatchewan, Canada, 2001, have demonstrated and taught workshops all over the USA and taught at the Ozark School of Blacksmithing for years, taught at John C. Campbell Folk school, and teach at my own shop by private arrangement. My work encompasses both traditional, and art smithing, ranges from small items to architectural work. I live outside Everton, Arkansas with my wife, Mary, a fiber and glass artist, in the Arkansas Ozark Mountains. Check out the ahilltopforge.com.

16th Annual Saltfork Craftsmen Blacksmithing Conference

Registration Form

Conference family classes....

Community Service Project

At the conference this year, Carol Doner will have fabric and sewing machines available to make Christmas Stockings and a few other projects that are for the men and women who serve our country. The stockings are given to a group that gathers goods and fills the stockings to send to our deployed men and women. She will also have fabric and the pattern for quilts for fallen soldiers' mothers. These are quilts that are made by groups of women and signed, thanking the mother for the protection their child allowed our country. You can stop by and sew for an hour or all day on either project– its for a good cause and we will have lots of fun! If you have any questions send her an email to caroldoner@hotmail.com

Silver clay charms, this class is using PMC which is precious metal clay containing pure silver. We will form our charms using stamps and cookie cutter type shapes, they will be dried and then fired using either a torch or a small propane kiln. This class usually takes about 1 1/2 to 2 hours depending on how quickly you follow directions. You will be able to purchase a bracelet to place your charms on or you can make one larger pendants and purchase a necklace chain.

Fold forming is using copper sheet to form elements that can be incorporated into jewelry such as necklaces or earrings. This has been a very popular class at the monthly meeting and Teresa was asked to do it again at the conference. This technique can be used for silver or even steel with application of heat.

Wire wrapping. You will be taking small gauge silver wire and creating beautiful jewelry using cabochon.

Rose Cross. You will be cutting cross of copper or bronze sheet and then making a rose from copper or bronze (to have contrast). This will take most of Sunday to complete.

Beginning Crochet, you will be taught the basic stitches and make a simple project. You can bring your own hook and yarn if you have some. Kits will be available.

The Oklahoma Lace Guild will be on hand again this year showing examples of bobbin lace. They will also be teaching a simple bobbin lace project.

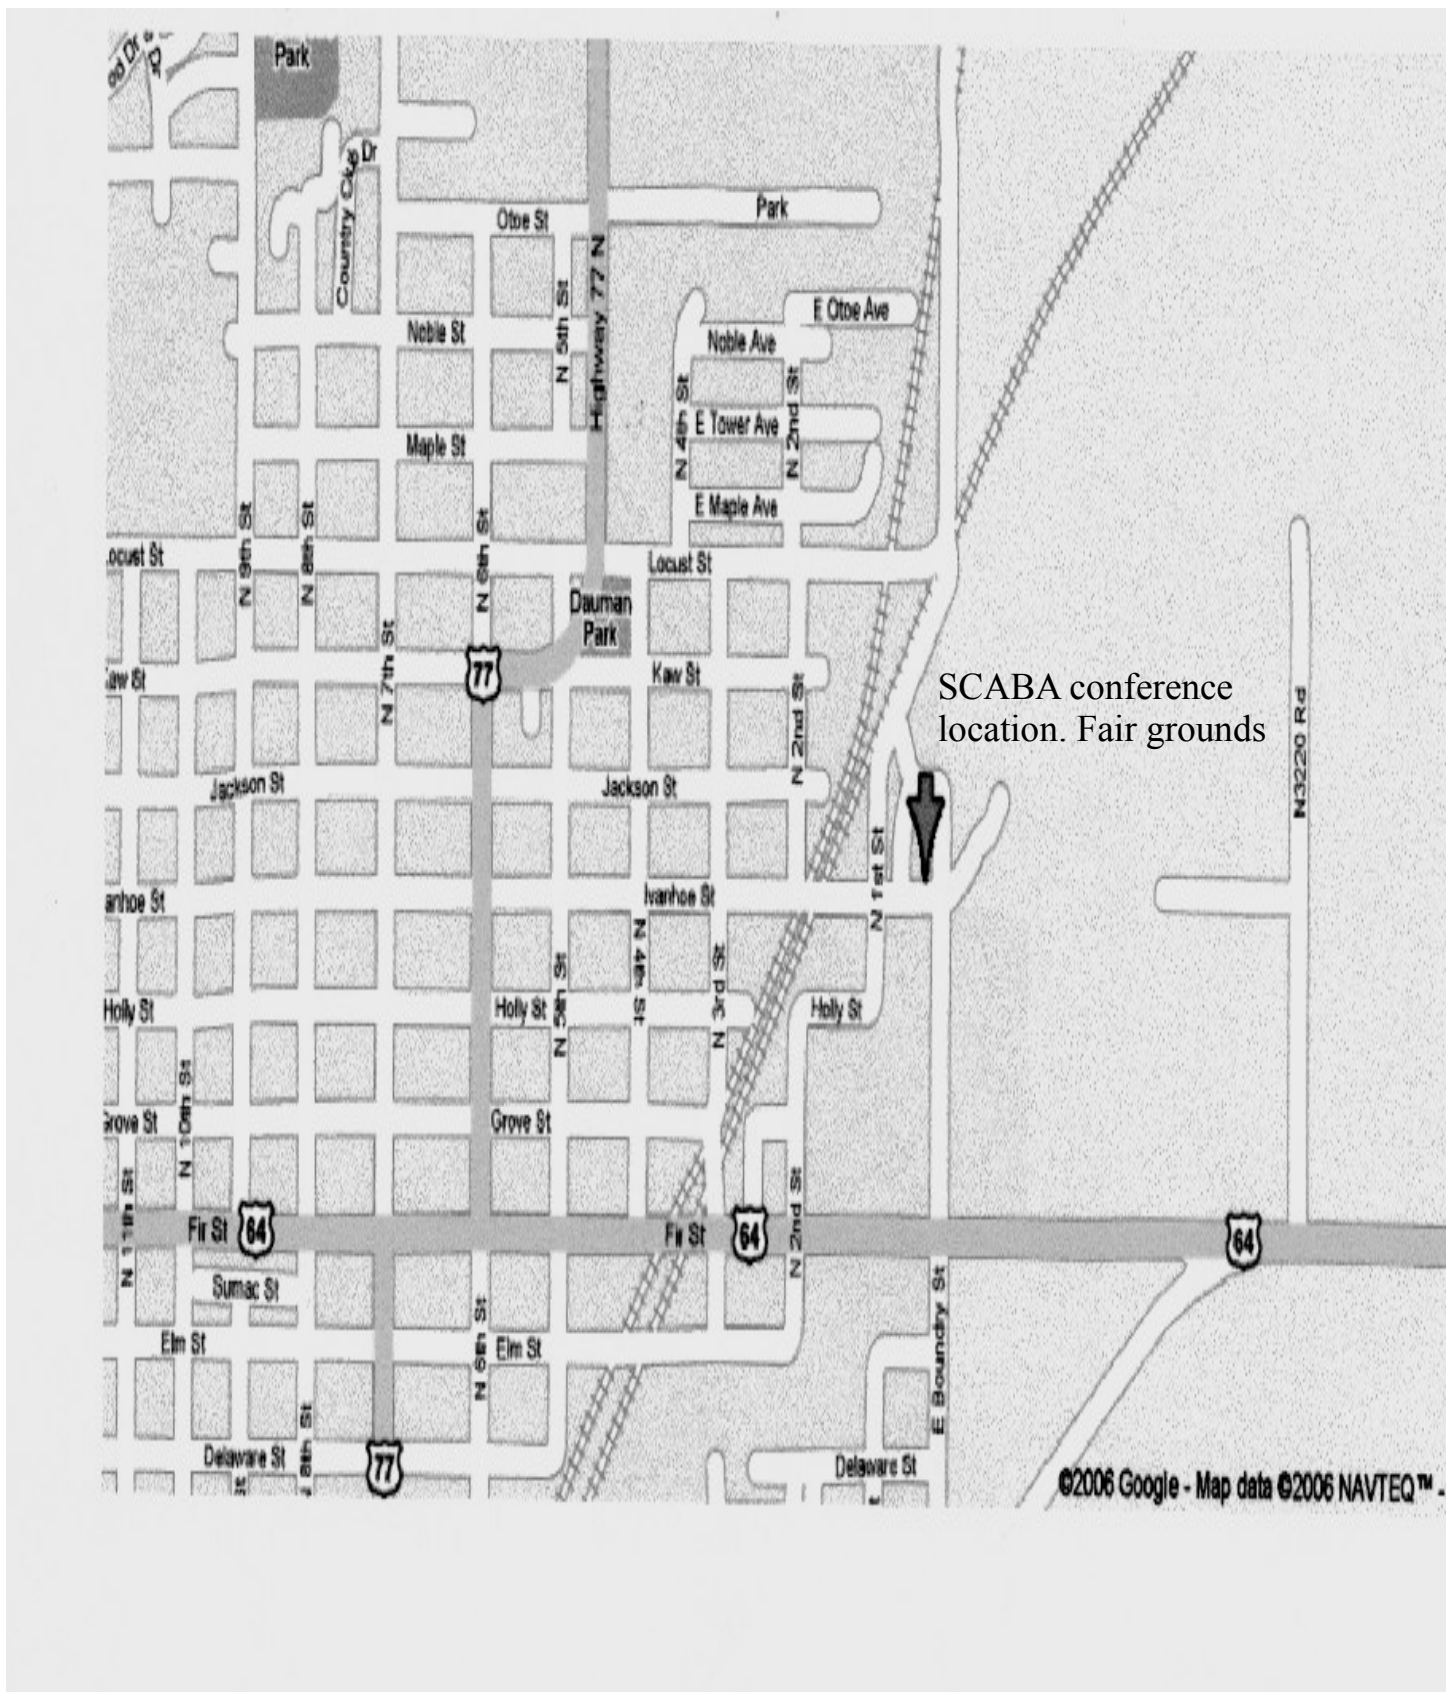

Basket weaving class. Mary Patrick will be coming to teach her style of basket weaving. She worked from a kit that includes a reed handle but you can pre-register and Bob Patrick will forge up a nice handle for you. There is a \$50. cost for the forged handle. This class will take most of Saturday and part of Sunday depending on how fast you catch on.

Please Pre-Register for any of these classes that have a cost involved in them. The Teachers need to know how many to plan for and some of them if there is not at least 4 pre-registered by Wednesday before the conference they may not make. Registration at the conference is allowed but classes that have not met the registration requirements may have been canceled.

PLEASE PRE-REGISTER.....

FILL OUT THE REGISTRATION FORM IN THIS NEWSLETTER AND GET IT MAILED IN ALONG WITH YOUR PAYMENT.

 Tickets are \$2.00 each and you don't have to be present to win.
 If you can't attend the conference in October, when the tool box and nail board tickets will be drawn and you want a chance to win one of them, you can send a check along with your contact information and the tickets will be processed for you. Tool box is first prize and nail board is second prize.

Send check (made out to SCABA) to Diana Davis 23966 NE Wolf Rd. Fletcher, Ok 73541.
Mail request must be received no later than Thursday, October 18th. Request received after that will be returned to sender.

Layering it on ...

SCABA member and jewelry artist Teresa Gabrish is working up a new class for those interested in learning different techniques and metals to make “one of a kind “ pieces of jewelry. You have seen her crosses and hearts now she is adding layers of other metals to give them more depth.

Students will have a choice of either a cross or heart design. Using copper, brass and nickel to create a 3-D layered look to the piece.

The cost of the class will be \$45.00. fee covers cost of instructions and metals.

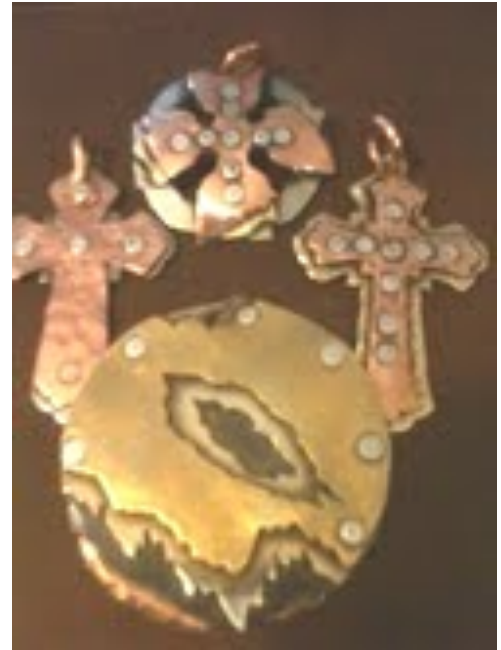

The date and location is still being arranged, but the tentative date will be in November and it will be held in the OKC area.

You will be asked to bring basic tools like pliers, side cutters and ball pien hammer if you have them. Also if you have bench pins and jeweler saw frames and blades these should be brought also.

For the class to make she will need no less that 5 students and a maximum of 10.

If you are interested in expanding your skills and learning new techniques, email Teresa and get your name on her list. There will be a \$20.00 deposit for the class in order to secure your spot. This fee goes towards the class cost.

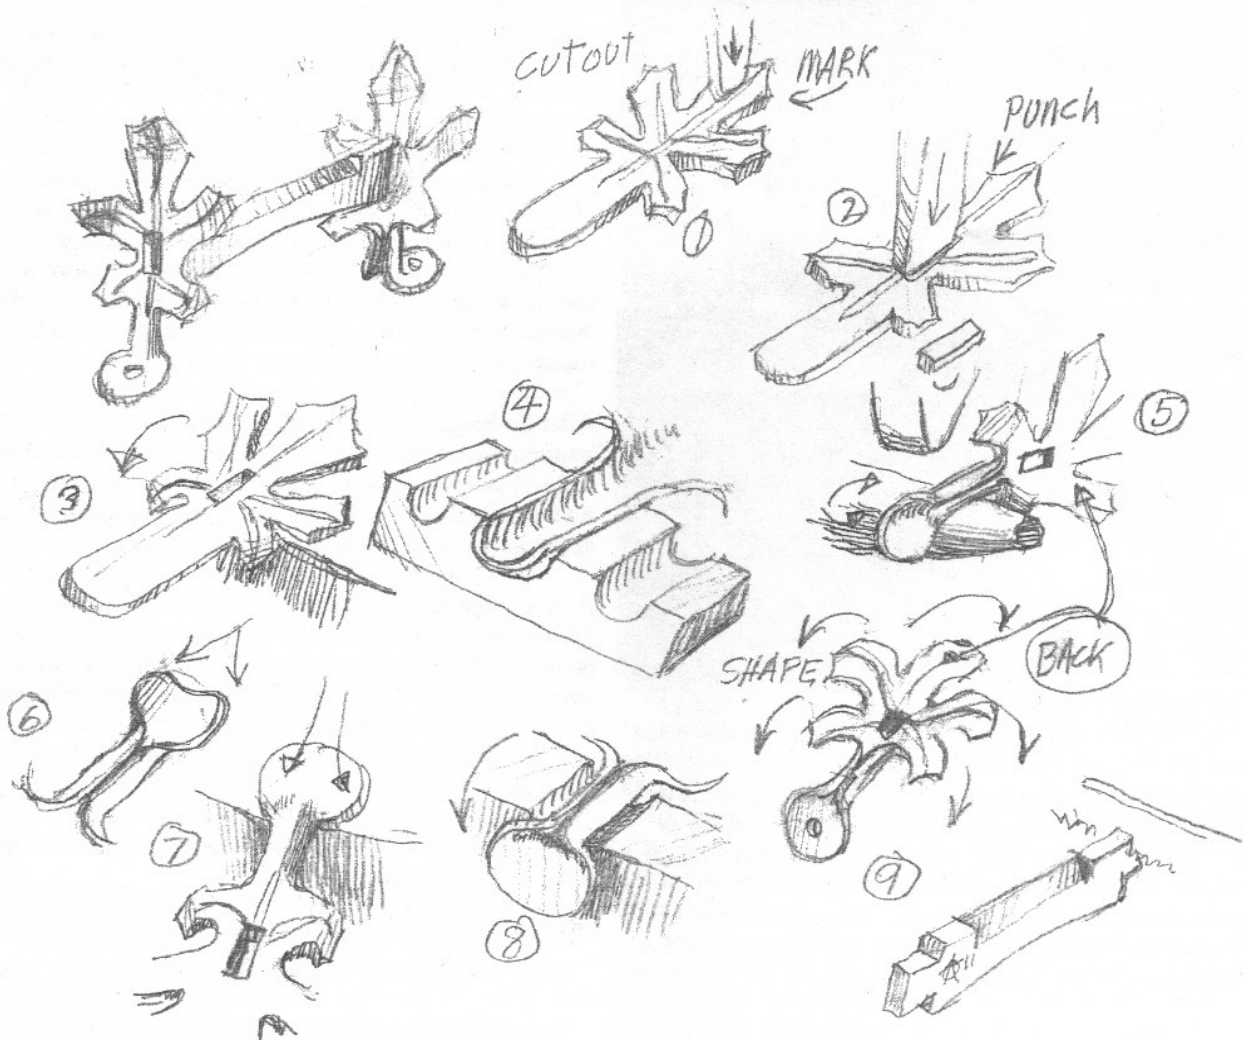

Contact her soon as this class will be opened to the general public as soon as the date is finalized. Her classes fill up fast so don't procrastinate too long.

Boot Scraper

By Steve Alling
a MABA Member

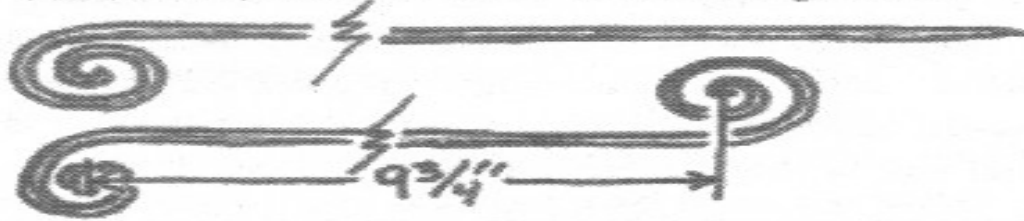

1. Cut out your design from 11 gauge material leaving the stem wide enough to curl completely around. Clean up and make any veining designs.
2. Punch hole for tenon.
3. Bend any part of your design that will restrict you getting at the stem.
4. Pre form stem in swage.
5. With the peen of your hammer complete rounding up stem being careful not to close end.
6. With a small hammer work the bottom out flat.
7. Draw out bottom to shape.
8. In swage bend bottom to 90 degrees.
9. Shape design and rivet it to scraper.

Club Coal

Saltfork Craftsmen has coal for sale. Coal is in 1-2" size pieces The coal is \$140.00/ton or .07 /pound to members **No sales to non-members.**

NW Region coal pile is located in Douglas, OK. If you make arrangements well in advance, Tom Nelson can load your truck or trailer with his skid steer loader for a fee of \$10 to be paid directly to Tom. Tom has moved his skid steer and must now haul the loader to the coal pile to load you out, hence the \$10 charge. You may opt to load your own coal without using Tom's loader. The coal can be weighed out at the Douglas Coop Elevator scales. Contact Tom Nelson (580-862-7691) to make arrangements to pick up a load. Do not call Tom after 9 PM!! Bring your own containers and shovels. Payment for the coal (\$.07 per pound) should be made directly to the Saltfork Treasurer.

NE Region coal location: Charlie McGee has coal to sell. He lives in the Skiatook, Oklahoma area. His contact information is:
littleironworks@gmail.com or (home) 918-245-7279 or (cell) 918-639-8779
